3d printing @ Schools Community

3d printing is an innovative teaching and learning practice. Teachers participating in ODS schools have already started implementing it. The ODS 3d printing @ Schools Community comes with a focus on discussing, organising and presenting design elements for 3D printing, while reusing existing infrastructure (Fab Labs, ICT and 3D printing equipment) in a dynamic pedagogical context, in order to address learning and teaching needs with new educational content. Aim of this community is to raise teachers awareness on 3d printing, organise training events on design, use and deployment of design software and 3D printing infrastructures in schools and elsewhere, initiate cross discipline, augmented reality driven, projects between schools and other institutions using, mainly, 3D design and printing activities. If you want to find more join the ODS 3d printing @ Schools Community!

Why join?

Join the Community

- **Teachers/Trainers** who want to search/exchange educational scenarios/ideas on 3d printing, teach e.g. science and engineering concepts using 3d printing technologies, develop their 3D design skills and digital fabrication expertise and deliver them to their students
- **Content Providers** who develop digital content regarding 3d printing applications and they want to make it available
- **Learners/Students** who want to develop their transversal competences, 3d design skills and digital fabrication experience
- **Fab Labs** which collaboratively design works in group projects with schools

Create new Community

Now, request for the creation of a new community!

Fill in this form and send your request to the Portal administrator

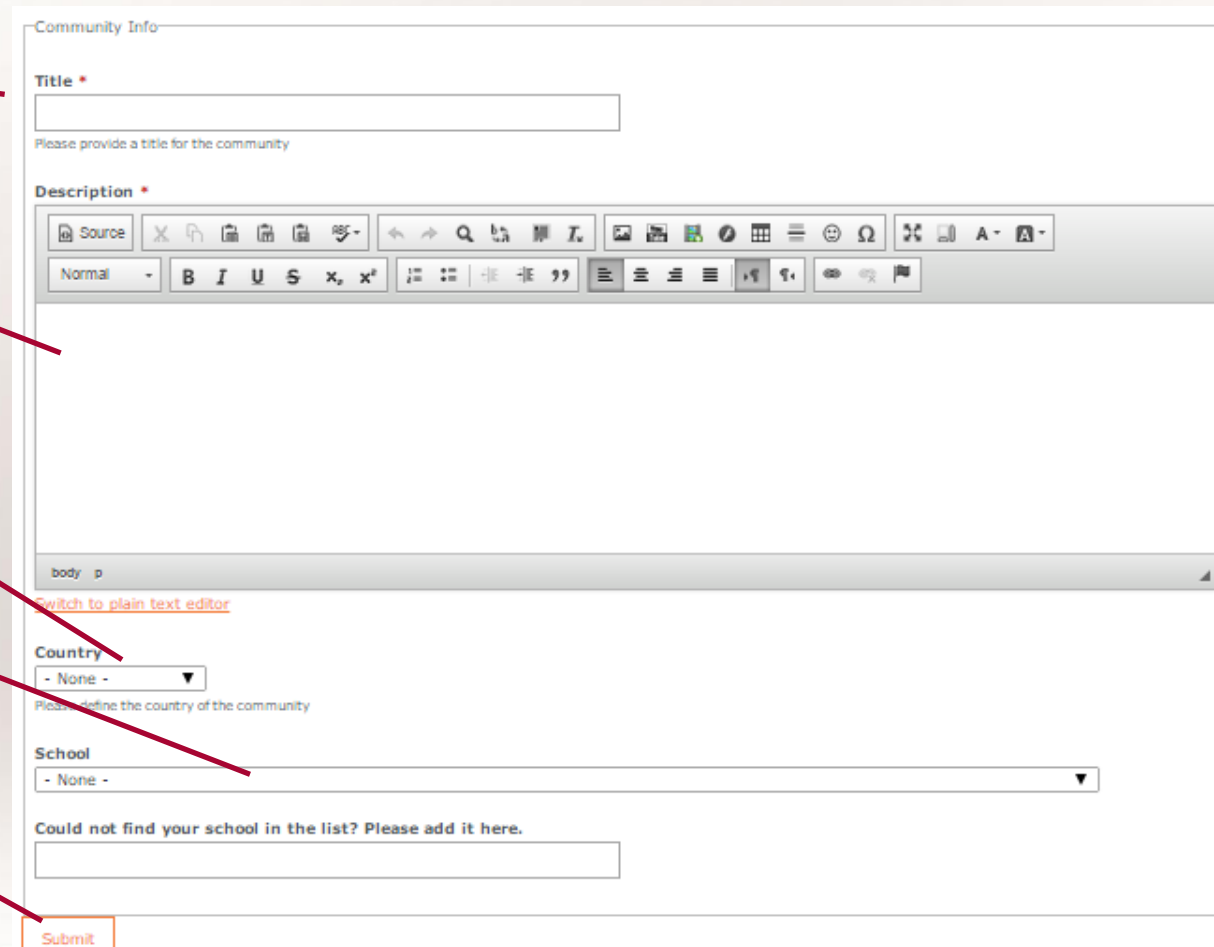

Write the **TITLE**

Provide the **DESCRIPTION**

Select a **Country**
(IF you want!)

Select a **School**

Press **SUBMIT** and wait for an approval!

The screenshot shows a web form titled "Community Info". It contains the following fields and elements:

- Title ***: A text input field with a red asterisk. Below it is the instruction "Please provide a title for the community".
- Description ***: A rich text editor with a toolbar containing icons for source, undo, redo, bold, italic, underline, strikethrough, link, unlink, bulleted list, numbered list, indent, outdent, link, unlink, and font size. Below the toolbar is a large text area and a "body p" status bar. A link "Switch to plain text editor" is located below the text area.
- Country**: A dropdown menu with "- None -" selected. Below it is the instruction "Please define the country of the community".
- School**: A dropdown menu with "- None -" selected.
- Could not find your school in the list? Please add it here.**: A text input field.
- Submit**: A red button at the bottom right of the form.
